Installation Instructions

THRESHOLDS

Aluminum - Bronze
Adjustable - Rabbeted
Carpet Saddles
Interlocking - Custom
Stair Nosing - Diamond
Plate - Stainless Steel
Expansion Joint Plates
Ramps - Thermal Breaks

-
- 1.** Measure door sill (frame width at bottom) and cut the threshold to extend the full width of the opening.
 - 2.** Notch the threshold sides if necessary to accommodate the side jamb stops.
 - 3.** Fasten on threshold to the sill with proper screws.
 - 4.** Operate the door several times to ensure the threshold does not to inhibit the door from self-closing and latching.
